IT WAS DIFFERENT.

Two men, meeting on a steamboat, fell into an informal conversation. One of them was pale, the other was red.

"I cannot think of life otherwise than as a failure," said the pale man. "With me it has been a constant struggle ever since I was a boy, and now that I am growing old, I cannot help but acknowledge that I have thrown myself away."

"I do not share your view," the red man answered. "My life has been useful."

"I cannot say as much," the pale man rejoined. "I have devoted my life to literature, and —"

"Ah, I see," the red man broke in. "It is different with me. I am a base ball player."

LUCKY MAN.

Visitor (looking through the photograph album)—This, if I mistake not, is a portrait of your deceased husband.

Widow—It is.

Visitor (with a well-meant effort to say something appropriate)—What a fine-looking man he was! And so young! But he has escaped many of the trials and sufferings of this life. Ah, me!

Widow (with a sigh)—Yes. He died just as I was getting ready to can five dozen boxes of blackberries.

IT has been held by not a few that meat eaters are more liable to cancer than vegetarians. In fact, the latter think that by living on a purely vegetable diet they are safe from that dread malady. It has been found from the records of the Mayo Hospital, at Jeypore, India, that in 102 cases of cancer which were operated upon, forty-one were on the persons of flesh-eaters, while sixty-one were on those of strict vegetarians, who had never eaten meat since their birth.

FREDERICK WARDE has declined tempting offers for a tour in Australia. He says he has persevered in the work of the legitimate drama here, and now that he is beginning to reap the reward of this consecration he does not intend to turn away and start afresh in foreign fields. "If fidelity to purpose and honest industry entitle him to fair fame and comforting fortune, Mr. Warde has truly won the distinction.

ABRAHAM LINCOLN was the tallest President in this country, namely, 6 feet 4 inches; Martin Van Buren the shortest, barely 5 feet 6 inches. Benjamin Harrison is shorter still, his height being 5 feet 5 inches.—*Boston Traveler.*

STEALING CHARITY FUNDS!

Prominent Men Charged With Misappropriating the Funds for the Relief of Fire Sufferers.

SPOKANE FALLS, W. T., Sept. 18.—The names of Sidney D. Waters, Peter Dueber and Wm. Gillespie, members of the common council and a police officer are mixed up in a very unsavory affair. They are charged with attemping to appropriate the funds and supplies for the relief of the sufferers by the late fire in this city.

Some time ago a man named Ingalls was arrested at Chico, charged with selling some of the provisions and appropriating the proceeds. He was brought back to this city and made a startling confession to the effect that a conspiracy existed among the city officials and others to appropriate the supplies on a large scale.

An investigation revealed the fact that several thousand dollars worth of the supplies had been stolen and converted into money. A report has been made implicating the above named councilmen in the plot. Warrants for their arrest were sworn out. It is understood that warrants for several others will soon be issued.

MRS. GENERAL LOGAN.

She Talks Concerning the Mention of Her Name in Connection With the Office of Commissioner of Pensions.

WASHINGTON, Sept. 18.—Mrs. Logan was interviewed yesterday on the suggestion that the place of commissioner of pensions be given to her.

"It is very kind of my friends," she said, "to mention me for the position. These newspaper men are always saying some kind little things about me, and though, of course, this is not serious, it is pleasing nevertheless."

The reporter insisted that the people were in earnest.

"Oh, well, if you are talking seriously, let me tell you I would not consider such an idea for a moment. I have too keen an appreciation of the duties and responsibilities of the office and of my own unfitness to assume them, even to think of it for a moment, even if the place was proffered me, which is absurdly impossible."

BALTIMORE, Md., Sept. 18.—The state executive committee of the Logan Invincibles of Maryland, largely composed of old soldiers adopted resolutions last night strongly recommending Mrs. General John A. Logan for the office of commissioner of pensions.

TELEGRAPH TALK.

The News of the Day as it Comes From Different Points.

OAKLAND, Cala., Sept. 18.—At Lake Chabal reservoir near here yesterday four Chinamen were killed by the premature explosion of a dynamite cartridge. Particulars are not known.

ATLANTA, Ga., Sept. 18.—Cecil Gabell, general manager of the Western and Atlantic road has been appointed general manager of the Central, vice Buknap, who goes to Mexico.

SAN FRANCISCO, Cala., Sept. 18.—Ng Woo Goo, of Los Angeles, has filed suit against Lieang Ting Tsan, Chinese consul general here, demanding the payment of $17,212, alleged to be due him and unpaid during the past two years. It is known, although not stated, that the action is based upon claims of Chinese, to whom the money had been awarded by the United States government and who should have been paid by the consul general to whom the money was intrusted.

THE DEADLY KNIFE.

A Young Southerner Murdered by a Ruffian.

EVERGREEN, Ala., Sept. 18.—C. C. Borden, a highly respected young man of Andalusia, Covington county, was stabbed through the heart and killed Monday night in the aisle of the Campbellite church by John Endsly, a sailor who has been working at one of the mills near the town. Borden was standing conversing with a young lady, who had refused the company of Endsly, and as Borden turned to walk out of the church, Endsly drew a large knife and plunged it into his heart. The murderer escaped.

Strike Settled.

ALBUQUERQUE, N. M., Sept. 18.—The strike of freight hands which has tied up trains on the Atlantic and Pacific road for seven days will close to-day with the reinstatement of the discharged conductors. The former employes will also resume work in the companies machine shops here.

WATERY GRAVES.

A Steam Yacht Lost in the Storm and Nine Men Drowned.

CLEVELAND, O., Sept. 18.—That the steam yacht Leo, which sailed from Lorain for this port, Sunday, was lost in a storm is certain. The Leo had nine men on board and all perished.

Since yesterday afternoon the beach in the west part of the city has been patrolled by the life saving crew and citizens. Two bodies were washed up this morning. They were the battered remains of Con. P. Ritter and R. D. Lawler, the latter a well known young lawyer.

The beach at the point, where the bodies come ashore, is but a narrow strip of sand backed by a high bluff and the heavy seas now rolling made it almost impossible for the searchers to venture down on the shore.

In Lorain there is sorrow and desolation, for the lost passengers were prominent men. The little town has sent out a large number of men to aid in the weary watch.

CHICAGO WORKING

With All Her Might for the World's Fair—$10,000,000 Pledged.

CHICAGO, Sept. 18.—Chicago is preparing a surprise for congress in connection with the World's Fair project. By the time the senators and representatives are ready to take up the question of locating the fair, Chicago will fire a broadside at them in the shape of $10,000,000 pledged as a guaranty fund, a site selected, plans drawn, information collected by a study of the greatest expositions of the old world, engineers employed and all matters arranged so that as soon as congress gives the word the work of letting the contracts for constructing the buildings can be commenced. This line of action was decided upon at a meeting of the executive committee yesterday afternoon.

THE COLD WAVE.

Snow in Michigan—Frosts at Various Points.

WASHINGTON, D. C., Sept. 18.—Fair weather, with westerly winds, lower temperature; light frost to-night.

IRON MOUNTAIN, Mich., Sept. 18.—The first snow of the year for this section of the Upper Peninsula, fell here yesterday afternoon. It was only a sprinkling but was followed by a bitterly cold wave.

EAST TAWAS, Sept. 18.—There was a heavy frost here yesterday morning, the first this fall. Considerable damage was done to the vines.

DUBUQUE, Ia., Sept. 18.—Heavy frost is reported in this locality and all along the line of the Illinois Central west Monday night. The crop is said to be greatly injured in many places.

WHILE PRAYING

A Methodist Minister is Arrested for Forgery.

LITTLE ROCK, Ark., Sept. 18.—Rev. S. H. Crouch, a Methodist minister of this city, who recently forged drafts, amounting to several hundred dollars, was arrested while making a prayer at a camp meeting about ten miles east of here last night. He was brought to this city and placed in jail.

Base Ball News.

BALTIMORE, Md., Sept. 18.—The *News* to-day says that it is informed by good authority that there are to be important changes in the base ball associations next year. Cincinnati is to connect itself with the league, taking the place of Indianapolis, whose franchise has been purchased by the league. Detroit will take the place of Cincinnati in the American association. Columbus is to be retired and its place in the association taken by either Troy or Worcester.

New York Working.

NEW YORK, Sept. 18.—The Hon. John H. Starin in a long letter to the mayor guarantees that the local steamboat interests will subscribe $500,000 if the World's Fair is held within New York City limits.

Races Postponed.

BOSTON, Sept. 18.—The $10,000 Baleh stallion race and the $10,000 pacing race, scheduled for to-day at Beacon park, have been postponed until tomorrow on account of rain.

Two Men Killed.

BIRMINGHAM, Ala., Sept. 18.—Two men were killed and five others severely injured by falling slate in one of the mines of the Eureka company, near Oxgood, Monday night.

Old Teacher Dead.

BALTIMORE, Md., Sept. 18.—Col. Wm. Allen, principal of the McDonough school, Baltimore county, since 1873, died yesterday.

LE CARON, THE SPY.

He Will Testify in the Cronin Case—The Suspects Trying to Get Woodruff Out of the Way.

CHICAGO, Ill., Sept. 18.—The attorneys for the Cronin suspects are trying to get Woodruff out of the way so that he will not be a witness at the trial of the other men, who were indicted with him. A motion will be made some day this week for his immediate trial, or his release.

He has been in jail since last May, and under the law guaranteeing speedy trials, is entitled to his discharge if not placed on trial. The state will contest his trial or release, but if ruled against will probably proceed with his trial for horse stealing.

Rather than stand a trial on that charge, he may waive his rights, but if his attorneys believe they can obtain his acquittal for the theft of Dean's horse, they may endeavor to force the trial on that indictment. The case could be disposed of in a few days, and if the verdict was favorable, he could be sent out of the country unless the state caused his rearrest.

The result of the joint labors of Lawyers Mills and Hynes, attorneys for the state, will place on the witness stand, in the trial now pending, LeCaron, (Beach) T. J. Kirby and Patrick Cooney. Cooney is already in charge of the police in Chicago and all denials of this statement are worthless. Kirby is held at Niagara, Ont., and will be brought to this city at the proper time. LeCaron is also in Canada and will accompany Kirby to Chicago, and the trio will tell the whole story of the conspiracy and murder.

The latest thing in the way of startling stories in the Cronin case is one told by Michael Wheelan, formerly Coughlin's partner on the police force. He says that not ten minutes after he received his notice of dismissal a prominent Irishmen offered to show him letters from across the water effectually proving the innocence of the men on trial and telling just who killed Dr. Cronin. Who the murderer is, Whelan claims not to know. He will not tell the name of the man who has this information.

MAJOR WARNER.

His Reasons for Declining the Pension Commissionership.

WASHINGTON, Sept. 18.—A dispatch from Deer Park, quoting a friend of the president as saying that Major William Warner may yet accept the position of commissioner of pensions, gains no credit here.

Major Warner told the president that his reason for declining was that he had made certain business engagements which he felt in honor bound to fill.

He recommended the appointment of Major George I. Merrill, of Mass., and he left Deer Park with the impression that the place would be tendered to Major Merrill.

The president is natnrally anxious that Maj. Warner's position should not be made public until the vacant place has been filled.

Every effort was made to conceal the fact that the position had been offered to Mr. Warner, a fact first published in the dispatches of the United Press.

Charged With Arson.

ONANCOCK, Va., Sept. 18.—John Burton was arrested to-day charged with arson. The church at Belle Haven was burned Saturday. Burton had collected a considerable sum of money for improvements to the edifice which he said had been lost in the fire. It is supposed that Burton set the church on fire to trump an excuse for not turning over the money to the trustees.

Damaging Storm.

ORANGE, N. J., Sept. 18.—This place was visited yesterday afternoon and evening by one of the severest rain storms in her history. The rain set in sharply at about 3 o'clock and fell in sheets. The brooks soon overflowed their banks and all the low-lying parts of the city were flooded and much damage was done.

Indianapolis is to have a new bank. A number of capitalists, headed by Josephus Collett, of Terre Haute, and including M. B. Wilson and P. A. Blue, of Sullivan, and parties from Evansville, Terre Haute and Indianapolis, have already provided for $250,000 of the capital stock of the new concern, and it is probable that the amount may be increased to $800,000.

This afternoon an alteration took place at the Keller Medicine company, which resulted in the leaving of one of the men. The many girls of the institution huddled together in fright, while the excitement was going on.

HENRY DROVER'S FUNERAL.

The Obsequies of a Prominent Man—Fort Wayne's Participation.

Of the obsequies of the late Henry F. W. Drover at Huntington yesterday, which was largely attended by Fort Wayne people, the Huntington *Democrat* says:

"The funeral was the largest seen in Huntington since the burial of Gen. J. R. Slack. The attendance of strangers was very large.' The Fort Wayne Commandery K. T., with sixty men in line, commanded by C. D. Law, presented a splendid appearance and created much favorable comment. The only thing occuring to mar the arrangements was the lateness of the train bearing the commandery and the delay in starting. Nearly all the business houses were closed during the funeral.

"The church was totally inadequate to accommodate the vast number present, and many were compelled to wait upon the outside during the services. The opening anthem by the church choir was, "Suess und Ruhig ist Der Schlummer" (Sweet and Peaceful is Thy Slumber.) Among the other hymns was, "The Beautiful Golden Gate" and "Go to Thy Rest in Peace," all being beautifully and appropriately rendered.

"Rev. C. Schaaf, of Fort Wayne, delivered the sermon in German, and after him Rev. C. M. Schaaf, the regular pastor, spoke in English.

"The pall bearers being S. F. Day, S. D. Baker, J. S. Glenn, George W. Humbert, J. W. Knapp and James M. Bratton."

The residing members at Huntington entertained the visiting Knights of Fort Wayne Commandery and furnished a sumptuous repast before the latter depared.

A touching feature of the sad occasion was the presentation by Deputy Master H. W. Mordhurst, of the symbolical ring worn by the father, the jeweled piece being given to the son of the deceased, according to the rules of the order.

HEIR TO MILLIONS.

The Logansport Story Renewed by the Appearance of the Missing Heir.

Hank Monroe Talbot, colored, of Lima, O., is thought to be the missing heir to a fortune of $5,000,000. The property was originally owned by his father, and consists of the real estate upon which the city of Logansport, Ind., is located.

He has employed counsel to prove his claim. The other heirs, ten children in all, have already employed ex-Congressman Hill, of Defiance, Ohio, to prosecute the claims, and he received an offer of $5,000,000 from the different railroads entering Logansport as a payment for the lands occupied by the tracks, depots and freight houses.

The obstacle in the way has been the missing heir—a son named Henry, who had been lost track of by the other heirs. Henry Talbot claims he can fully establish his identity, and if he does so, will get a share of the immense fortune.

IS HE DEAD?

The Report That Charles May was Instantly Killed Likely to be a Myth.

The report is current that Charles May, formerly a resident of this city, was mangled and instantly killed at Hurley, Wis., last Sunday.

It was stated in a letter sent to this city that while running along on the top of his train he fell under the wheels and was cut to pieces.

There is a Charles May, a resident of this city, who has a wife living on Maumee avenue, and the woman is plaintiff in a suit for divorce now pending in the Allen Circuit court.

The man was not a railroader, but a painter. What makes the case all the more mysterious is that two days ago the woman received a letter from her husband postmarked Bentwood, Ill. An investigation is being made.

BROKE INTO A POSTOFFICE.

Postmaster Latham's Official Career is Marked Early With an Attempted Robbery.

Last night the postoffice at Huntertown was entered and an attempt made to blow open the safe. The iron box was badly marred, but the would-be robbers failed in their work and consequently carried off little of value. The safe look was ruined and the door had to be broken open to-day.

The new republican postmaster, Mr. Latham, assumed his office only two days ago. The retired officer was Mr. Hunter.

MAMMOTH FLAMES.

A Delaware Town Almost Wiped Out by the Flames—Fires at Other Places.

WILMINGTON, Del., Sept. 18.—A special received here this morning says that Seaford, a town of two thousand inhabitants, in the lower part of this state, is on fire and will probably be totally destroyed. Ten stores and several dwellings, the town hall, Masonic and Odd Fellows' halls have already been burned.

OMAHA, Neb., Sept. 18.—The flouring mills of Oskamp Haynes, at Twentieth and Pierce streets, burned shortly after midnight last night. Loss $25,000; insurance $12,000.

NEVADA, Cal., Sept. 18.—Reports yesterday from Forest City states that the town is endangered by forest fires. Many families have moved their household furniture from the town and the mining companies have transported their giant powder out of reach of the flames.

"BLACK LEGS."

Three Thousand London Strikers Demand Their Dismissal.

LONDON, Sept. 18.—Work on the docks is steadily assuming its normal aspect. Fewer non-union men are employed to-day than yesterday, owing in a great measure to the fact that many of them are joining the union. The returned strikers are much quieter,

Three thousand dock laborers assembled outside of the gates of the Victoria dock this morning and demanded the dismissal of the "black legs" employed there, otherwise they would not return to work. The directors of the dock company refused to comply with the demand and called upon the police to protect the men at work. A strong force of police appeared upon the dock and the "black legs" are working under their protection.

Cardinal Manning and the lord mayor held a conference with the dock directors committee this afternoon with reference to the complaints made by the directors that the strikers have not kept their agreement. The cardinal promised the directors to exhort the strikers to observe the agreement under which the strike was settled, and particularly that clause binding them not to molest the "black legs." The cardinal also said that the lord mayor and himself would issue a proclamation to the men warning them against rioting.

WEDNESDAY, SEPT. 18, 1889.

OUR NEW DEPARTURE.

Commencing with to-morrow, THE SENTINEL will be printed on a new three-revolution Taylor power press, of the latest and most complete design, with a folding apparatus attached.

The new press will print and fold 2,500 papers an hour. This speed will run off the edition of our paper much more rapidly than we have heretofore done and enable us to reach all the readers of THE SENTINEL at an earlier hour.

Late delivery, with our constantly increasing circulation during the last year, has been a great source of annoyance not only to our subscribers but also to us. Our new press will, however, enable us to overcome this difficulty and make complaint on this account unnecessary in the future.

No pains or expense have been spared to give THE SENTINEL readers all the advantages to be derived from the progress of the day. Our local, telegraph, and editorial columns give all the latest and freshest news of the day, and with our newly equipped mechanical conveniences we hope to make THE SENTINEL better than ever before, and worthy of the favor and admiration of our readers.

OUR Street Railway company is giving excellent service to its patrons.

THE task of securing a jury in the Cronin murder case is progressing very slowly.

IN THE building boom that has characterized the summer just closing one of the noticeable features has been the church building. Three new church edifices have been, or are being built, and improvements have been in progress on several others.

PERSONS who write to the papers respecting asphalt pavements in foreign cities make allusion to the fact that it is by constant care that they are kept in a serviceable condition. In Paris repairers are employed without cessation and, on the appearance of the slightest depression in the surface, the coating is renewed at night, without inconvenience to public traffic. Unless attention is given at once these wheel tracks will spread and deepen and make gutters which will cause the speedy ruin of the roadway.

ANOTHER Ohio man jumps into office in the person of Judge Lewis A. Groff, whom the president appointed the other day as commissioner of the land office. Judge Groff is a well known man in the west and was born in Ohio forty-eight years ago. In 1867 Judge Groff was admitted to the bar and immediately afterward commenced practice in the city of Toledo. He at once became a prominent figure in politics and continued as such until 1870, when he removed to Lincoln, Neb. In 1877 he came to Omaha, where he has since resided. Although a strong Republican, he was elected district judge in 1887 on the non-partisan ticket, and has since attended to nearly all the criminal business in the district.

IN A discussion before the British association on the subject of electricity, Mr. W. H. Pierce, chief electrician of the postoffice department, said that the act recently passed by the New York legislature providing for the execution of condemned murderers by electricity would have to be rescinded. He claimed that it was impossible to get a current of sufficient intensity to kill a man with certainty. He had experimented with an enormous induction coil and had tried with a spark twenty inches long to kill a pig, but could not. He knew of several instances of persons taking shocks and who at the time were supposed to have been killed, but who were afterward quite well. He said the sensational reports published in the newspapers about people being killed by shocks from electric wires had, upon investigation, been found to be nonsense.

With a World Wide Record.

Among all the people who have attained celebrity as marksmen, not one has attained the summit of skill and stands as pre-eminent as Dr. F. W. Carver. Many have essayed to equal him, but none have completed the task. A child of the plains, born and bred among the scouts, hunters and trappers of the great far west; known to the Indians as the "Evil Spirit of the Plains;" dreaded by them, and inured from earliest boyhood, to hardship and endurance, he brings to Forepaugh's Great Show an exemplification of skill, such as training from boyhood only can acquire and has earned for him the deserved title of the "Champion All Around Rifle Shot of the World." As all our readers know the Wild West and Forepaugh Shows will reach Fort Wayne, on Monday, September 30.

SCANLAN'S NIGHT.

The Actor Makes His Appearance at Library Hall Fair—A Successful Night.

The attendance at Library Hall Fair last night was enormous. A feature that served to attract large numbers was the presence of W. J. Scanlan after his performance of "Myles Aroon" at the Temple. The actor was present at the invitation of Father Brammer. He sang two songs and then departed amidst deafening applause.

An Important Element

Of the success of Hood's Sarsaparilla is the fact that every purchaser receives a fair equivalent for his money. The familiar headline "100 Doses One Dollar," stolen by imitators, is original with and true only of Hood's Sarsaparilla. This can easily be proven by any one who desires to test the matter. For real economy, buy only Hood's Sarsaparilla. Sold by all druggists.

Interested People.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does is indeed wonderful. He authorizes all druggists to give those who call for it a sample bottle *Free*, that they may try it before purchasing. The large bottles are 50c and $1.00. We certainly would advise a trial. It may save you from consumption.

SIDE BY SIDE!

The Two Children Who Were Stricken Dead by Lightning Interred Yesterday.

Yesterday, at St. Peter's Lutheran church near South Whitley, occurred the funeral services over the bodies of the young daughters of Mr. Christian Hockemeyer and John Trier. The church was the scene of their sudden death, for there they were stricken down by lightning during the storm of last Sunday. A large gathering assembled. It was one of the most notable occasions of sadness ever held in Whitley county.

JOHN C. COLLINS, who formerly resided in Cincinnati, but whose home is now in Kansas City, and who recently arrived in New York, has not enjoyed a night's rest in seventeen years. He is religious in feeling, and says that the only thing which will produce temporary relief is the reading of the Lord's prayer. At first he tried counting as an inducement to sleep, but it proved a total failure, as did every effort except the prayer, though its influence is of brief duration. For two and one-half years he has been unable to work at anything. His farm and stock gave him support for several years, but reverses in loss of crops and cattle and the treachery of friends despoiled him of all property except some in Kansas City.

THE Austrian Archbishops are probably the most highly paid in the world. The Cardinal Archbishop of Vienna has only about £6,000 a year, but the Cardinal Archbishop of Olmutz has £40,000, the Cardinal Archbishop of Prague has £35,000, and the Archbishop of Eriru has £60,000. And the primate of Hungary, the Cardinal Archbishop of Grau, has £80,000 a year.

WILLIAM H. ABLE is a farmer near Collins Station, Pa., and for some time one of the water-pipes on the place was clogged. He did not feel like cutting the pipe, so he caught an eel, put it in the pipe and next morning was gratified to find the eel in the trough at the end of the pipe and the water running freely.

The mystery has been solved at last;

And young and old may smile secure
With lips and teeth so bright and pure.

Little Miss Muffett, she sat on a tuffett,
Eating of curs and whey;
There came a great spider who sat down beside her,
To frighten Miss Muffett away.

"Of spider's bite, I assure you, Pond's Extract will cure you,"
Said Miss Muffett, "so here will I stay."

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. SIXTH POINT

You should read THE CHICAGO DAILY NEWS because, being a family newspaper, *it's against the saloon.* The home and the saloon are forever opposed. There can be no neutrals in this war. But THE DAILY NEWS is temperate in temperance. It isn't a prohibition organ—it's not sure prohibition is the best way of treating the evil—but it believes in prohibiting the saloon keeper from ruling and ruining in American society. If you would read, and have your family read, a newspaper which places the interests of the home higher than those of the saloon, read THE CHICAGO DAILY NEWS.

Remember—Its circulation is 220,000 a day—over a million a week—and it costs by mail 25 cts. a month, four months $1.00,—*one cent a day.*

THE RAILROAD BUDGET.

General Passenger Agent Ford Talks on the Subject of Low Passenger Rates—News From the Busy Centers.

E. A. Ford, general passenger agent of the Pennsylvania lines and of the Vandalia, feels that the press is disposed to place the position of the roads he represents in a wrong light as regards the mileage tickets. He says there is not a general passenger agent in the country who will go further than he to accommodate the merchants and the commercial travelers in the matter of low rates. All he asks is that the roads which issue the low rate mileage tickets be protected in their rights. He would favor the issuing of a ticket at a low rate on which every member of a business firm and his employes, the heads of families and every member of the family, could travel, but the roads should be protected against other persons traveling on such mileage tickets.

Mr. Ford takes the ground that a man who once a year travels over a railroad is not entitled to as low a rate as the man who passes over it fifty or 100 times a year. There should be a wholesale ticket which business men and their traveling salesman can travel on, or the the heads of families and the members of the family also. Mr. Ford takes the position that this whole matter lies in the hands of the merchants and business men of the country generally, and they should see to it that laws are passed which would prevent a low rate mileage ticket being used except by the parties who are entitled to it.

He says that unless a mileage ticket can be protected by the legislative bodies of the several states, he would favor making the rate to all persons who travel the roads in the Central Traffic territory 2½ cents per mile. When questioned as to making 2 cents a mile the rate between all points, he said that the roads of Ohio, Indiana and Illinois could not stand such a low rate. There were some that could, but it would be hard on the roads that could not, and would cause trouble to the roads which are classed as the weaker lines. He thought, however, a two-and-a-half-cent rate was preferable to the common mileage-book, as it has been abused.

Under the agreement between the north and south lines, which includes the Monon, the Big Four, the Pennsylvania and the Cincinnati, Hamilton and Dayton, each company is calling in its mileage tickets and will issue no more at $20 per one thousand miles; but, commencing with the 22d of this month, they will all issue a mileage ticket of one thousand miles at $25 per one thousand miles, good for bearer. The two-thousand-mile tickets of the Pennsylvania issue will not be good on the north and south line in the system, but will be good on all east and west lines. After the 22d of this month the only issue of tickets which will be good on the north and south lines will be the regular trip tickets, the coupon ticket and the two and one-half cent per mile mileage ticket. Conductors will be instructed to honor no others.

GOSSIP OF THE DAY.

The Pittsburg pay-car went west today.

The safe in the Wabash ticket office is being repainted.

The Wabash men receive their monthly pay to-morrow.

The railroads and shops had but little local and personal news this morning.

New machinery will arrive for the new Centlivre brewery the first of next week.

Foreman Sam Henderson, of the Pittsburg car shops, has his department on night work.

The Pittsburg car shops will commence working again on new gondola cars to-morrow.

A. L. Woodworth, assistant foreman of the Pittsburg shops, will take a trip north in a few days.

Storekeeper Enoch Cox, of the Pennsylvania, was presented with a handsome bouquet of flowers this morning.

The Bass blacksmith shops are crowded with work, and night work will be carried on, probably all winter, after this week.

City Treasurer C. J. Sosenheimer, formerly clerk in the Pittsburg copper shops, was a visitor at that department on night work.

The Grand Rapids and Indiana ran its annual excursion to Petoskey and Traverse City, Michigan, yesterday, from all points on the road between Richmond and Lima, Ind.

This morning while Fred W. Becker, of the Pittsburg copper shops, was cutting steel iron with the big shears, one of his fingers was accidentally cut off and another one terribly mutilated. The man suffered untold agonies, and was taken to his home on Pontiac street, in the Lily, where Dr. George Stemen attended him and amputated one finger.

HE PROVED HIS CASE.

"Human nature is mighty queer, isn't it?" he observed to the other man on the rear platform of the street car.

"Yes, I suppose so," replied the other.

"People are too sensitive—altogether too sensitive."

"I don't know about that,"

"Well, I do. For instance, now, you have a red nose. You are not to blame for it, perhaps, but you are so sensitive that if I should offer you a remedy for it you——"

"You old loafer. I've a good mind to knock your head off," hissed the red-nosed man as he squared off.

"Told you so!" replied the other as he dropped off. "Human nature is the queerest durned thing on earth, and some folks are so sensitive that they'd swallow their false teeth rather let any one know they had 'em."

THE most forgetful young man in Snyder County, Pa., recently went to town with his best girl, and, when the time came for his return, actually left without her, and proceeded several miles before he happened to think he had forgotten something.

Impurities of the blood often cause great annoyance at this season; Hood's Sarsaparilla purifies the blood, and cures all such affections.

One of the novel features of the constitution of North Dakota is a declaration that "log rolling" in the legislature is to be regarded as bribery.

News About Town.

It is the current report about town that Kemp's Balsam for the Throat and and Lungs is making some remarkable cures with people who are troubled with Coughs, Sore Throat, Asthma, Bronchitis and Consumption. Any druggist will give you a trial bottle *free of cost.* It is guaranteed to relieve and cure. The large bottles are 50c and $1.

"It is all right:" Is what Mr. Geo C. Henry, a Burlington, Iowa, druggist says, of Chamberlain's Cough Remedy. Mr. Henry ought to know, as he has sold over 300 bottles of the remedy, during the past winter. Coughs, colds, croup and whooping cough are speedily cured by it. For sale by Geo. H. Loesh.

A PITTSBURGH miss, now in London, is said to have written to the Princess Louise, Duchess of Fife, offering to buy one of the numerous sets of bracelets presented to her on her recent marriage.

LONG LIFE.

There is nothing in the world more generally desired than long life, yet the majority of people put off caring for their health—not because they are really careless, but because we live our lives at such a pace we have not time to give the subject sufficient thought until we receive a reminder in the shape of a severe illness.

Then, too, we are constantly bewildered by the various schools of medicine, and the physicians who represent them, and often blunder in our choice of a doctor.

If people only knew that the very best health-keeper, life-preserver and disease preventer that has yet been discovered, is simmered down into a concentrated and very palatable form in the shape of New Style Pleasant Taste Vinegar Bitters, they would not hesitate a moment to try it.

But they do not know. How can they know, when so many not only worthless, but positively injurious drugs are constantly flooding the market under various names and guises, that the New Style Vinegar Bitters is as bad as any of them?

They do not know, of course, unless they have the courage to try the New Style. It straightens out a tangled-up system in a very short while, and those who buy it once buy it always.

Why don't you try it, reader? It is sent out by a responsible house, and is exactly as represented. It costs but a dollar for a very large bottle. Try it once and you will never be so glad of anything in your life. Your druggist may not have it, but he will order it for you. Be sure it says New Style Pleasant Taste on carton and bottle before you take it. Try it, and you will feel happier than if you had found a gold mine, for it really is a mine—of health. Free from alcohol and opium; composed of expensive herbs and roots, with fine, delicate flavoring.

THE best time to bathe is just before going to bed, as any danger of catching cold is thus avoided, and the complexion is improved by keeping warm for several hours after leaving the bath. A couple of pounds of bran put into a thin bag and then in the bath-tub is excellent for softening the skin. It should be left to soak in a small quantity of water several hours before being used.

IT WAS DIFFERENT.

Two men, meeting on a steamboat, fell into an informal conversation. One of them was pale, the other was red.

"I cannot think of life otherwise than as a failure," said the pale man. "With me it has been a constant struggle ever since I was a boy, and now that I am growing old, I cannot help but acknowledge that I have thrown myself away."

"I do not share your view," the red man answered. "My life has been useful."

"I cannot say as much," the pale man rejoined. "I have devoted my life to literature, and —"

"Ah, I see," the red man broke in. "It is different with me. I am a base ball player."

LUCKY MAN.

Visitor (looking through the photograph album)—This, if I mistake not, is a portrait of your deceased husband.

Widow—It is.

Visitor (with a well-meant effort to say something appropriate)—What a fine-looking man he was! And so young! But he has escaped many of the trials and sufferings of this life. Ah, me!

Widow (with a sigh)—Yes. He died just as I was getting ready to can five dozen boxes of blackberries.

It has been held by not a few that meat eaters are more liable to cancer than vegetarians. In fact, the latter think that by living on a purely vegetable diet they are safe from that dread malady. It has been found from the records of the Mayo Hospital, at Joypore, India, that in 102 cases of cancer which were operated upon, forty-one were on the persons of flesh-eaters, while sixty-one were on those of strict vegetarians, who had never eaten meat since their birth.

FREDERICK WARDE has declined tempting offers for a tour in Australia. He says he has persevered in the work of the legitimate drama here, and now that he is beginning to reap the reward of this consecration he does not intend to turn away and start afresh in foreign fields. "If fidelity to purpose and honest industry entitle him to fair fame and comforting fortune, Mr. Warde has truly won the distinction.

ABRAHAM LINCOLN was the tallest President in this country, namely, 6 feet 4 inches; Martin Van Buren the shortest, barely 5 feet 6 inches. Benjamin Harrison is shorter still, his height being 5 feet 5 inches.—*Boston Traveler.*

STEALING CHARITY FUNDS!

Prominent Men Charged With Misappropriating the Funds for the Relief of Fire Sufferers.

SPOKANE FALLS, W. T., Sept. 18.—The names of Sidney D. Waters, Peter Dueber and Wm. Gillespie, members of the common council and a police officer are mixed up in a very unsavory affair. They are charged with stemping to appropriate the funds and supplies for the relief of the sufferers by the late fire in this city.

Some time ago a man named Ingalls was arrested at Chico, charged with selling some of the provisions and appropriating the proceeds. He was brought back to this city and made a startling confession to the effect that a conspiracy existed among the city officials and others to appropriate the supplies on a large scale.

An investigation revealed the fact that several thousand dollars worth of the supplies had been stolen and converted into money. A report has been made implicating the above named councilmen in the plot. Warrants for their arrest were sworn out. It is understood that warrants for several others will soon be issued.

MRS. GENERAL LOGAN.

She Talks Concerning the Mention of Her Name in Connection With the Office of Commissioner of Pensions.

WASHINGTON, Sept. 18.—Mrs. Logan was interviewed yesterday on the suggestion that the place of commissioner of pensions be given to her.

"It is very kind of my friends," she said, "to mention me for the position. These newspaper men are always saying some kind little things about me, and though, of course, this is not serious, it is pleasing nevertheless."

The reporter insisted that the people were in earnest.

"Oh, well, if you are talking seriously, let me tell you I would not consider such an idea for a moment. I have too keen an appreciation of the duties and responsibilities of the office and of my own unfitness to assume them, even to think of it for a moment, even if the place was proffered me, which is absurdly impossible."

BALTIMORE, Md., Sept. 18.—The state executive committee of the Logan Invincibles of Maryland, largely composed of old soldiers adopted resolutions last night strongly recommending Mrs. General John A. Logan for the office of commissioner of pensions.

TELEGRAPH TALK.

The News of the Day as it Comes From Different Points.

OAKLAND, Cala., Sept. 18.—At Lake Chabal reservoir near here yesterday four Chinamen were killed by the premature explosion of a dynamite cartridge. Particulars are not known.

ATLANTA, Ga., Sept. 18.—Cecil Gabull, general manager of the Western and Atlantic road has been appointed general manager of the Central, vice Bukuap, who goes to Mexico.

SAN FRANCISCO, Cala., Sept. 18.—Ng Woo Goo, of Los Angeles, has filed suit against Lieang Ting Tsan, Chinese consul general here, demanding the payment of $17,212, alleged to be due him and unpaid during the past two years. It is known, although not stated, that the action is based upon claims of Chinese, to whom the money had been awarded by the United States government and who should have been paid by the consul general to whom the money was intrusted.

THE DEADLY KNIFE.

A Young Southerner Murdered by a Woman.

EVERGREEN, Ala., Sept. 18.—C. C. Borden, a highly respected young man of Andalusia, Covington county, was stabbed through the heart and killed Monday night in the aisle of the Campbellite church by John Endsly, a sailor who has been working at one of the mills near the town. Borden was standing conversing with a young lady, who had refused the company of Endsly, and as Borden turned to walk out of the church, Endsly drew a large knife and plunged it into his heart. The murderer escaped.

Strike Settled.

ALBUQUERQUE, N. M., Sept. 18.—The strike of freight hands which has tied up trains on the Atlantic and Pacific road for seven days will close to-day with the reinstatement of the discharged conductors. The former employes will also resume work in the companies machine shops here.

WATERY GRAVES.

A Steam Yacht Lost in the Storm and Nine Men Drowned.

CLEVELAND, O., Sept. 18.—That the steam yacht Leo, which sailed from Lorain for this port, Sunday, was lost in a storm is certain. The Leo had nine men on board and all perished.

Since yesterday afternoon the beach in the west part of the city has been patrolled by the life saving crew and citizens. Two bodies were washed up this morning. They were the battered remains of Con. P. Ritter and R. D. Lawler, the latter a well known young lawyer.

The beach at the point, where the bodies come ashore, is but a narrow strip of sand backed by a high bluff and the heavy seas now rolling made it almost impossible for the searchers to venture down on the shore.

In Lorain there is sorrow and desolation, for the lost passengers were prominent men. The little town has sent out a large number of men to aid in the weary watch.

CHICAGO WORKING

With All Her Might for the World's Fair—$10,000,000 Pledged.

CHICAGO, Sept. 18.—Chicago is preparing a surprise for congress in connection with the World's Fair project. By the time the senators and representatives are ready to take up the question of locating the fair, Chicago will fire a broadside at them in the shape of $10,000,000 pledged as a guaranty fund, a site selected, plans drawn, information collected by a study of the greatest expositions of the old world, engineers employed and all matters arranged so that as soon as congress gives the word the work of letting the contracts for constructing the buildings can be commenced. This line of action was decided upon at a meeting of the executive committee yesterday afternoon.

THE COLD WAVE.

Snow in Michigan—Frosts at Various Points.

WASHINGTON, D. C., Sept. 18.—Fair weather, with westerly winds, lower temperature; light frost to-night.

IRON MOUNTAIN, Mich., Sept. 18.—The first snow of the year for this section of the Upper Peninsula, fell here yesterday afternoon. It was only a sprinkling but was followed by a bitterly cold wave.

EAST TAWAS, Sept. 18.—There was a heavy frost here yesterday morning, the first this fall. Considerable damage was done to the vines.

DUBUQUE, Ia., Sept. 18.—Heavy frost is reported in this locality and all along the line of the Illinois Central west Monday night. The crop is said to be greatly injured in many places.

WHILE PRAYING

A Methodist Minister is Arrested for Forgery.

LITTLE ROCK, Ark., Sept. 18.—Rev. S. H. Crouch, a Methodist minister of this city, who recently forged drafts, amounting to several hundred dollars, was arrested while making a prayer at a camp meeting about ten miles east of here last night. He was brought to this city and placed in jail.

Base Ball News.

BALTIMORE, Md., Sept. 18.—The *News* to-day says that it is informed by good authority that there are to be important changes in the base ball associations next year. Cincinnati is to connect itself with the league, taking the place of Indianapolis, whose franchise has been purchased by the league. Detroit will take the place of Cincinnati in the American association. Columbus is to be retired and its place in the association taken by either Troy or Worcester.

New York Working.

NEW YORK, Sept. 18.—The Hon. John H. Starin in a long letter to the mayor guarantees that the local steamboat interests will subscribe $500,000 if the World's Fair is held within New York City limits.

Races Postponed.

BOSTON, Sept. 18.—The $10,000 Baldwin stallion race and the $10,000 pacing race, scheduled for to-day at Beacon park, have been postponed until to-morrow on account of rain.

Two Men Killed.

BIRMINGHAM, Ala., Sept. 18.—Two men were killed and five others severely injured by falling slate in one of the mines of the Eureka company, near Osgood, Monday night.

Old Teacher Dead.

BALTIMORE, Md., Sept. 18.—Col. Wm. Allen, principal of the McDonnough school, Baltimore county, since 1878, died yesterday.

LE CARON, THE SPY.

He Will Testify in the Cronin Case—The Suspects Trying to Get Woodruff Out of the Way.

CHICAGO, Ill., Sept. 18.—The attorneys for the Cronin suspects are trying to get Woodruff out of the way so that he will not be a witness at the trial of the other men, who were indicted with him. A motion will be made some day this week for his immediate trial, or his release.

He has been in jail since last May, and under the law guaranteeing speedy trials, is entitled to his discharge if not placed on trial. The state will contest his trial or release, but if ruled against will probably proceed with his trial for horse stealing.

Rather than stand a trial on that charge, he may waive his rights, but if his attorneys believe they can obtain his acquittal for the theft of Dean's horse, they may endeavor to force the trial on that indictment. The case could be disposed of in a few days, and if the verdict was favorable, he could be sent out of the country unless the state caused his rearrest.

The result of the joint labors of Lawyers Mills and Hynes, attorneys for the state, will place on the witness stand, in the trial now pending, LeCaron, (Beach) T. J. Kirby and Patrick Cooney. Cooney is already in charge of the police in Chicago and all denials of this statement are worthless. Kirby is held at Niagara, Ont., and will be brought to this city at the proper time. LeCaron is also in Canada and will accompany Kirby to Chicago, and the trio will tell the whole story of the conspiracy and murder.

The latest thing in the way of startling stories in the Cronin case is one told by Michael Whelan, formerly Coughlin's partner on the police force. He says that not ten minutes after he received his notice of dismissal a prominent Irishmen offered to show him letters from across the water effectually proving the innocence of the men on trial and telling just who killed Dr. Cronin. Who the murderer is, Whelan claims not to know. He will not tell the name of the man who has this information.

MAJOR WARNER.

His Reasons for Declining the Pension Commissionership.

WASHINGTON, Sept. 18.—A dispatch from Deer Park, quoting a friend of the president as saying that Major William Warner may yet accept the position of commissioner of pensions, gains no credit here.

Major Warner told the president that his reason for declining was that he had made certain business engagements which he felt in honor bound to fill.

He recommended the appointment of Major George I. Merrill, of Mass., and he left Deer Park with the impression that the place would be tendered to Major Morrill.

The president is naturally anxious that Maj. Warner's position should not be made public until the vacant place has been filled.

Every effort was made to conceal the fact that the position had been offered to Mr. Warner, a fact first published in the dispatches of the United Press.

Charged With Arson.

ONANCOCK, Va., Sept. 18.—John Burton was arrested to-day charged with arson. The church at Belle Haven was burned Saturday. Burton had collected a considerable sum of money for improvements to the edifice which he said had been lost in the fire. It is supposed that Burton set the church on fire to tamp an excuse for not turning over the money to the trustees.

Damaging Storm.

ORANGE, N. J., Sept. 18.—This place was visited yesterday afternoon and evening by one of the severest rain storms in her history. The rain set in sharply at about 3 o'clock and fell in sheets. The brooks soon overflowed their banks and all the low-lying parts of the city were flooded and much damage was done.

Indianapolis is to have a new bank. A number of capitalists, headed by Josephus Collett, of Terre Haute, and including M. B. Wilson and P. A. Blue, of Sullivan, and parties from Evansville, Terre Haute and Indianapolis, have already provided for $250,000 of the capital stock of the new concern, and it is probable that the amount may be increased to $500,000.

This afternoon an alteration took place at the Keller Medicine company, which resulted in the leaving of one of the men. The many girls of the institution huddled together in fright, while the excitement was going on.

HENRY DROVER'S FUNERAL.

The Obsequies of a Prominent Man —Fort Wayne's Participation.

Of the obsequies of the late Henry F. W. Drover at Huntington yesterday, which was largely attended by Fort Wayne people, the Huntington *Democrat* says:

"The funeral was the largest seen in Huntington since the burial of Gen. J. R. Slack. The attendance of strangers was very large. The Fort Wayne Commandery K. T., with sixty men in line, commanded by C. D. Law, presented a splendid appearance and created much favorable comment. The only thing occuring to mar the arrangements was the lateness of the train bearing the commandery and the delay in starting. Nearly all the business houses were closed during the funeral.

"The church was totally inadequate to accommodate the vast number present, and many were compelled to wait upon the outside during the services. The opening anthem by the church choir was, "Suess und Ruhig ist Der Schlummer" (Sweet and Peaceful is Thy Slumber.) Among the other hymns was, "The Beautiful Golden Gate" and "Go to Thy Rest in Peace," all being beautifully and appropriately rendered.

"Rev. C. Schaaf, of Fort Wayne, delivered the sermon in German, and after him Rev. C. M. Schaaf, the regular pastor, spoke in English.

"The pall bearers being S. F. Day, S. D. Baker, J. S. Glenn, George W. Humbert, J. W. Knapp and James M. Bratton."

The residing members at Huntington entertained the visiting Knights of Fort Wayne Commandery and furnished a sumptuous repast before the latter departed.

A touching feature of the sad occasion was the presentation by Deputy Master H. W. Mordhurst, of the symbolical ring worn by the father, the jeweled piece being given to the son of the deceased, according to the rules of the order.

HEIR TO MILLIONS.

The Logansport Story Renewed by the Appearance of the Missing Heir.

Hank Monroe Talbot, colored, of Lima, O., is thought to be the missing heir to a fortune of $5,000,000. The property was originally owned by his father, and consists of the real estate upon which the city of Logansport, Ind., is located.

He has employed counsel to prove his claim. The other heirs, ten children in all, have already employed ex-Congressman Hill, of Defiance, Ohio, to prosecute the claims, and he received an offer of $5,000,000 from the different railroads entering Logansport as a payment for the lands occupied by the tracks, depots and freight houses.

The obstacle in the way has been the missing heir—a son named Henry, who had been lost track of by the other heirs. Henry Talbot claims he can fully establish his identity, and if he does so, will get a share of the immense fortune.

IS HE DEAD

The Report That Charles May was Instantly Killed Likely to be a Myth.

The report is current that Charles May, formerly a resident of this city, was mangled and instantly killed at Hartley, Wis., last Sunday.

It was stated in a letter sent to this city that while running along on the top of his train he fell under the wheels and was cut to pieces.

There is a Charles May, a resident of this city, who has a wife living on Maumee avenue, and the woman is plaintiff in a suit for divorce now pending in the Allen Circuit court.

The man was not a railroader, but a painter. What makes the case all the more mysterious is that two days ago the woman received a letter from her husband postmarked Bentwood, Ill. An investigation is being made.

BROKE INTO A POSTOFFICE.

Postmaster Latham's Official Career is Marked Early With an Attempted Robbery.

Last night the postoffice at Huntertown was entered and an attempt made to blow open the safe. The iron box was badly marred, but the would-be robbers failed in their work and consequently carried off little of value. The safe look was ruined and the door had to be broken open to-day.

The new republican postmaster, Mr. Latham, assumed his office only two days ago. The retired officer was Mr. Hunter.

MAMMOTH FLAMES.

A Delaware Town Almost Wiped Out by the Flames—Fires at Other Places.

WILMINGTON, Del., Sept. 18.—A special received here this morning says that Seaford, a town of two thousand inhabitants, in the lower part of this state, is on fire and will probably be totally destroyed. Ten stores and several dwellings, the town hall, Masonic and Odd Fellows' halls have already been burned.

OMAHA, Neb., Sept. 18.—The flouring mills of Oakamp Haynes, at Twentieth and Pierce streets, burned shortly after midnight last night. Loss $25,000; insurance $12,000.

NEVADA, Cal., Sept. 18.—Reports yesterday from Forest City states that the town is endangered by forest fires. Many families have moved their house hold furniture from the town and the mining companies have transported their giant powder out of reach of the flames.

"BLACK LEGS."

Three Thousand London Strikers Demand Their Dismissal.

LONDON, Sept. 18.—Work on the docks is steadily assuming its normal aspect. Fewer non-union men are employed to-day than yesterday, owing in a great measure to the fact that many of them are joining the union. The returned strikers are much quieter.

Three thousand dock laborers assembled outside of the gates of the Victoria dock this morning and demanded the dismissal of the "black legs" employed there, otherwise they would not return to work. The directors of the dock company refused to comply with the demand and called upon the police to protect the men at work. A strong force of police appeared upon the dock and the "black legs" are working under their protection.

Cardinal Manning and the lord mayor held a conference with the dock directors committee this afternoon with reference to the complaints made by the directors that the strikers have not kept their agreement. The cardinal promised the directors to exhort the strikers to observe the agreement under which the strike was settled, and particularly that clause binding them not to molest the "black legs." The cardinal also said that the lord mayor and himself would issue a proclamation to the men warning them against rioting.

NEW YORK, Sept. 18.—It was the talk of the sporting world last night that Edward Garrison, the famous American jockey, was summarily discharged by Mr. August Belmont yesterday for his very peculiar riding of that gentleman's great suburban winner, Raceland, in the Oriental handicap at Gravesend yesterday.

Fort Wayne Sentinel.

E. A. H. HAGERTY, Editor and Proprietor.

WEDNESDAY, SEPT. 18, 1889.

OUR NEW DEPARTURE.

Commencing with to-morrow, THE SENTINEL will be printed on a new three-revolution Taylor power press, of the latest and most complete design, with a folding apparatus attached.

The new press will print and fold 2,500 papers an hour. This speed will run off the edition of our paper much more rapidly than we have heretofore done and enable us to reach all the readers of THE SENTINEL at an earlier hour.

Late delivery, with our constantly increasing circulation during the last year, has been a great source of annoyance not only to our subscribers but also to us. Our new press will, however, enable us to overcome this difficulty and make complaint on this account unnecessary in the future.

No pains or expense have been spared to give THE SENTINEL readers all the advantages to be derived from the progress of the day. Our local, telegraph, and editorial columns give all the latest and freshest news of the day, and with our newly equipped mechanical conveniences we hope to make THE SENTINEL better than ever before, and worthy of the favor and admiration of our readers.

OUR Street Railway company is giving excellent service to its patrons.

THE task of securing a jury in the Cronin murder case is progressing very slowly.

IN THE building boom that has characterized the summer just closing one of the noticeable features has been the church building. Three new church edifices have been, or are being built, and improvements have been in progress on several others.

PERSONS who write to the papers respecting asphalt pavements in foreign cities make allusion to the fact that it is by constant care that they are kept in a serviceable condition. In Paris repairers are employed without cessation and, on the appearance of the slightest depression in the surface, the coating is renewed at night, without inconvenience to public traffic. Unless attention is given at once these wheel tracks will spread and deepen and make gutters which will cause the speedy ruin of the roadway.

ANOTHER Ohio man jumps into office in the person of Judge Lewis A. Groff, whom the president appointed the other day as commissioner of the land office. Judge Groff is a well known man in the west and was born in Ohio forty-eight years ago. In 1867 Judge Groff was admitted to the bar and immediately afterward commenced practice in the city of Toledo. He at once became a prominent figure in politics and continued as such until 1870, when he removed to Lincoln, Neb. In 1877 he came to Omaha, where he has since resided. Although a strong Republican, he was elected district judge in 1887 on the non-partisan ticket, and has since attended to nearly all the criminal business in the district.

IN A discussion before the British association on the subject of electricity, Mr. W. H. Pierce, chief electrician of the postoffice department, said that the act recently passed by the New York legislature providing for the execution of condemned murderers by electricity would have to be rescinded. He claimed that it was impossible to get a current of sufficient intensity to kill a man with certainty. He had experimented with an enormous induction coil and had tried with a spark twenty inches long to kill a pig, but could not. He knew of several instances of persons taking shocks and who at the time were supposed to have been killed, but who were afterward quite well. He said the sensational reports published in the newspapers about people being killed by shocks from electric wires had, upon investigation, been found to be nonsense.

With a World Wide Record.

Among all the people who have attained celebrity as marksmen, not one has attained the summit of skill and stands as pre-eminent as Dr. F. W. Carver. Many have essayed to equal him, but none have completed the task. A child of the plains, born and bred among the scouts, hunters and trappers of the great far west; known to the Indians as the "Evil Spirit of the Plains;" dread it by them, and inured from earliest boyhood to hardship and endurance, he brings to Forepaugh's Great Show an exemplification of skill, such as training from boyhood only can acquire and has earned for him the deserved title of the "Champion All Around Rifle Shot of the World." As all our readers know the Wild West and Forepaugh Shows will reach Fort Wayne, on Monday, September 30.

SCANLAN'S NIGHT.

The Actor Makes His Appearance at Library Hall Fair—A successful Night.

The attendance at Library Hall Fair last night was enormous. A feature that served to attract large numbers was the presence of W. J. Scanlan after his performance of "Myles Aroon" at the Temple. The actor was present at the invitation of Father Brammer. He sang two songs and then departed amidst deafening applause.

An Important Element

Of the success of Hood's Sarsaparilla is the fact that every purchaser receives a fair equivalent for his money. The familiar headline "100 Doses One Dollar," stolen by imitators, is original with and true only of Hood's Sarsaparilla. This can easily be proven by any one who desires to test the matter. For real economy, buy only Hood's Sarsaparilla. Sold by all druggists.

SIDE BY SIDE!

The Two Children Who Were Stricken Dead by Lightning Interred Yesterday.

Yesterday, at St. Peter's Lutheran church near South Whitley, occurred the funeral services over the bodies of the young daughters of Mr. Christian Heckemeyer and John Trier. The church was the scene of their sudden death, for there they were stricken down by lightning during the storm of last Sunday. A large gathering assembled. It was one of the most notable occasions of sadness ever held in Whitley county.

JOHN G. COLLINS, who formerly resided in Cincinnati, but whose home is now in Kansas City, and who recently arrived in New York, has not enjoyed a night's rest in seventeen years. He is religious in feeling, and says that the only thing which will produce temporary relief is the reading of the Lord's prayer. At first he tried counting as an inducement to sleep, but it proved a total failure, as did every effort except the prayer, though its influence is of brief duration. For two and one-half years he has been unable to work at anything. His farm and stock gave him support for several years, but reverses in loss of crops and cattle and the treachery of friends despoiled him of all property except some in Kansas City.

THE Austrian Archbishops are probably the most highly paid in the world. The Cardinal Archbishop of Vienna has only about £6,000 a year, but the Cardinal Archbishop of Olmutz has £40,000, the Cardinal Archbishop of Prague has £35,000, and the Archbishop of Erlen has £60,000. And the primate of Hungary, the Cardinal Archbishop of Gran, has £80,000 a year.

WILLIAM H. ABLE is a farmer near Collins Station, Pa., and for some time one of the water-pipes on the place was clogged. He did not feel like cutting the pipe, so he caught an eel, put it in the pipe and next morning was gratified to find the eel in the trough at the end of the pipe and the water running freely.

The mystery has been solved at last;
Our teeth no longer need decay,
All troubles of the mouth are past,
By SOZODONT they're swept away;
And young and old may smile secure
With lips and teeth so bright and pure.

GOVERNOR BEAVER, of Pennsylvania, has visited every county in the State since he became a Governor.

Little Miss Muffett, she sat on a tuffett,
Eating of curs and whey;
There came a great spider who sat down beside her,
To frighten Miss Muffett away.

But little Miss Muffett sat still on her tuffett,
And ate up her curds and whey;
"Of spider's bite, I assure you, Pond's Extract will cure you,"
Said Miss Muffett, "so here will I stay."

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle. Jan-27-1y

You should read THE CHICAGO DAILY NEWS because, being a family newspaper, it *suggests the silver.* The home and the saloon are forever opposed. There can be no neutrals in this war. But THE DAILY NEWS is temperate in temperance. It isn't a prohibition organ—it's not sure prohibition is the best way of treating the evil—but it believes in prohibiting the saloon power from ruling and ruining in American society. If you would read, and have your family read, a newspaper which places the interests of the home higher than those of the saloon, read THE CHICAGO DAILY NEWS.

Remember—Its circulation is 200,000 a day—over a million a week—and it costs by mail 25 cts. a month, four months $1, or one cent a day.

THE RAILROAD BUDGET.

General Passenger Agent Ford Talks on the Subject of Low Passenger Rates—News From the Busy Centers.

E. A. Ford, general passenger agent of the Pennsylvania lines and of the Vandalia, feels that the press is disposed to place the position of the roads he represents in a wrong light as regards the mileage tickets. He says there is not a general passenger agent in the country who will go farther than he to accommodate the merchants and the commercial travelers in the matter of low rates. All he asks is that the roads which issue the low rate mileage tickets be protected in their rights. He would favor the issuing of a ticket at a low rate on which every member of a business firm and his employes, the heads of families and every member of the family, could travel, but the roads should be protected against other persons traveling on such mileage tickets.

Mr. Ford takes the ground that a man who once a year travels over a railroad is not entitled to as low a rate as the man who passes over it fifty or 100 times a year. There should be a wholesale ticket which business men and their traveling salesman can travel on, or the the heads of families and the members of the family also. Mr. Ford takes the position that this whole matter lies in the hands of the merchants and business men of the country generally, and they should see to it that laws are passed which would prevent a low rate mileage ticket being used except by the parties who are entitled to it.

He says that unless a mileage ticket can be protected by the legislative bodies of the several states, he would favor making the rate to all persons who travel the roads in the Central Traffic territory 2½ cents per mile. When questioned as to making 2 cents a mile the rate between all points, he said that the roads of Ohio, Indiana and Illinois could not stand such a low rate. There were some that could, but it would be hard on the roads that could not, and would cause trouble to the roads which are classed as the weaker lines. He thought, however, a two-and-a-half-cent rate was preferable to the common mileage-book, as it has been abused.

Under the agreement between the north and south lines, which includes the Monon, the Big Four, the Pennsylvania and the Cincinnati, Hamilton and Dayton, each company is calling in its mileage tickets and will issue no more at $20 per one thousand miles; but, commencing with the 22d of this month, they will all issue a mileage ticket of one thousand miles at $25 per one thousand miles, good for bearer. The two-thousand-mile tickets of the Pennsylvania issue will not be good on the north and south line in the system, but will be good on all east and west lines. After the 22d of this month the only issue of tickets which will be good on the north and south lines will be the regular trip tickets, the coupon ticket and the two and one-half cent per mile mileage ticket. Conductors will be instructed to honor no others.

GOSSIP OF THE DAY.

The Pittsburg pay-car went west today.

The safe in the Wabash ticket office is being repainted.

The Wabash men receive their monthly pay to-morrow.

The railroads and shops had but little local and personal news this morning.

New machinery will arrive for the new Centlivre brewery the first of next week.

Foreman Sam Henderson, of the Pittsburg car shops, has his department on night work.

The Pittsburg car shops will commence working again on new gondola cars to-morrow.

A. L. Woodworth, assistant foreman of the Pittsburg shops, will take a trip north in a few days.

Storekeeper Enoch Cox, of the Pennsylvania, was presented with a handsome bouquet of flowers this morning.

The Bass blacksmith shops are crowded with work, and night work will be carried on, probably all winter, after this week.

City Treasurer C. J. Sosenheimer, formerly clerk in the Pittsburg copper shops, was a visitor at that department this morning.

The Grand Rapids and Indiana ran its annual excursion to Petoskey and Traverse City, Michigan, yesterday, from all points on the road between Richmond and Lima, Ind.

This morning while Fred W. Becker, of the Pittsburg copper shops, was cutting steel iron with the big shears, one of his fingers was accidentally cut off and another one terribly mutilated. The man suffered untold agonies, and was taken to his home on Pontiac street, in the Lily, where Dr. George Stemen attended him and amputated one finger.

HE PROVED HIS CASE.

"Human nature is mighty queer, isn't it?" he observed to the other man on the rear platform of the street car.

"Yes, I suppose so," replied the other.

"People are too sensitive—altogether too sensitive."

"I don't know about that."

"Well, I do. For instance, now, you have a red nose. You are not to blame for it, perhaps, but you are so sensitive that if I should offer you a remedy for it you——"

"You old loafer. I've a good mind to knock your head off," hissed the red-nosed man as he squared off.

"Told you so!" replied the other as he dropped off. "Human nature is the queerest durned thing on earth, and some folks are so sensitive that they'd swallow their false teeth rather let any one know they had 'em."

The most forgetful young man in Snyder County, Pa., recently went to town with his best girl, and, when the time came for his return, actually left without her, and proceeded several miles before he happened to think he had forgotten something.

Impurities of the blood often cause great annoyance at this season; Hood's Sarsaparilla purifies the blood, and cures all such affections.

One of the novel features of the constitution of North Dakota is a declaration that "log rolling" in the legislature is to be regarded as bribery.

News About Town.

It is the current report about town that Kemp's Balsam for the Throat and and Lungs is making some remarkable cures with people who are troubled with Coughs, Sore Throat, Asthma, Bronchitis and Consumption. Any druggist will give you a trial bottle *free of cost*. It is guaranteed to relieve and cure. The large bottles are 50c and $1.

"It is all right!" Is what Mr. Geo C. Henry, a Burlington, Iowa, druggist, says, of Chamberlain's Cough Remedy. Mr. Henry ought to know, as he has sold over 300 bottles of the remedy, during the past winter. Coughs, colds, croup and whooping cough are speedily cured by it. For sale by Geo. H. Loesh.

A Pittsburgh miss, now in London, is said to have written to the Princess Louise, Duchess of Fife, offering to buy one of the numerous sets of bracelets presented to her on her recent marriage.

LONG LIFE.

There is nothing in the world more generally desired than long life, yet the majority of people put off caring for their health—not because they are really careless, but because we live our lives at such a pace we have not time to give the subject sufficient thought until we receive a reminder in the shape of a severe illness.

Then, too, we are constantly bewildered by the various schools of medicine, and the physicians who represent them, and often blunder in our choice of a doctor.

If people only know that the very best health-keeper, life-preserver and disease preventer that has yet been discovered, is simmered down into a concentrated and very palatable form in the shape of New Style Pleasant Taste Vinegar Bitters, they would not hesitate a moment to try it.

But they do not know. How can they know, when so many not only worthless, but positively injurious drugs are constantly flooding the market under various names and guises, that the New Style Vinegar Bitters is as bad as any of them?

They do not know, of course, unless they have the courage to try the New Style. It straightens out a tangled-up system in a very short while, and those who buy it once buy it always.

Why don't you try it, reader? It is sent out by a responsible house, and is exactly as represented. It costs but a dollar for a very large bottle. Try it once and you will never be so glad of anything in your life. Your druggist may not have it, but he will order it for you. Be sure it says New Style Pleasant Taste on carton and bottle before you take it. Try it, and you will feel happier than if you had found a gold mine; for it really is a mine—of health.

Free from alcohol and opium; composed of expensive herbs and roots, with fine, delicate flavoring.

The best time to bathe is just before going to bed, as any danger of catching cold is thus avoided, and the complexion is improved by keeping warm for several hours after leaving the bath. A couple of pounds of bran put into a thin bag and then in the bath tub is excellent for softening the skin. It should be left to soak in a small quantity of water several hours before being used.
